

FOR IMMEDIATE RELEASE

(Lawrence, Kansas) EMR Inc. was one of five 8a companies selected by the Omaha District, US Corps of Engineers, for an Environmental Remediation Services IDIQ Contract.

The contract is a two year, \$25M IDIQ Contract for wide range of environmental remediation services in the following areas including, but not limited to, work plans; investigations and field studies (both on-site and off-site work), analytical testing, engineering support and remedial design, response actions, removals and operations and maintenance, planning documentation deliverables.

The Omaha District of the US Corps of Engineers has been a client of EMR's for over 4 years for Formerly Used Defense Sites (FUDS) properties. More recently, EMR has completed work under the district for work under the Native American Lands Environmental Mitigation Program (NALEMP).

EMR Inc. is a Native American Owned, Woman Owned Company, headquartered in Lawrence, Kansas.
